

# KUTUZOV OLEG OLEGOVICH

I am 20 years old, live in Moscow and study in the 3rd year at Moscow State University. I have been programming in C++/Python for about 3 years. Last year I started doing statistical data analysis in python. I want to start a career in data science

## SKILLS

### Programming

Python ●●●●●●●●  
C/C++ ●●●●●●●●  
LaTeX ●●●●●●●●

### Operating Systems

Linux ●●●●●●●●  
Windows ●●●●●●●●

### Software & Tools

Visualisation ●●●●●●●●  
(e.g. matplotlib, seaborn, ...)  
Data handling/analysis ●●●●●●●●  
(e.g. numpy, scipy, pandas, ...)

## CERTIFICATES

Certificate with honors on completion of the course "Algorithms and data structures" from Technosphere Mail.ru

## PROJECTS

Client-server application for working with the database. Partially implemented its own query language. The database was implemented using a hash table, the server is written in C++, and the client application is written in python. Link

## EDUCATION

📅 09/2018 - Present

📍 Moscow State University

Department of Mathematical Statistics and Random Processes, subject of the course work: "Time series Analysis"

Faculty of Mechanics and Mathematics

## GENERAL SKILLS

Mathematical Statistics

Linear Algebra

Probability Theory

Git

SQL

Algorithms and Data Structures

Object Oriented Programming

Tensor Calculus

ML

Vi/Vim

Unix
